### *A Few words from Bill & Sue*

July is almost done and we are getting closer to the Blast in Kentucky. I know it will be lots of FUN.

They have quite a few vendors attending and the theme is Derby days. So come out and wear your Derby hats on Friday night and see if you can win the judging for the best hat. The chapter was also asked if we can donate 10 baked items for the hospitably room they can be bought or home made. We can use all the help we can get at the blast to make it a great success.

Mike Vanhooose has stepped down as the rider educator of our chapter due to amount of work at the district level. Roger Early has stepped up to become our Ride Coordinator for chapter C if you have any ideas for rides please tell us. I know he will do a fine job and with all of us helping him we can made it a great year of riding .

As a note the Stearns Railroad ride on the 28th of July will meet at Kroger's in Brannon Crossing at 9 am this is a change of meeting place.

# RIDER EDUCATION

## From the Educator's Spotlight

While at the West Virginia Convention is when we found out that the government is going to raise the Ethanol level in gasoline from the E10% level to E15% level and they are to do it soon.

We did some research and found it to be true. What does this mean for us? It will eat away at all rubber components in all gasoline engines. We have found that Lucas Oil has a product that will bring the E10/E15 back to normal levels and also improve mileage. It is good for E10, E15 , E20, & E85. The good thing is that you only need to put 1oz. to 10 gallons of gas to equalize it out. We will be getting some of this for all of our gas engines to use. This is info to pass on to all of the members in Kentucky.

### *Ride Tips form the CD*

***1. Just wanted to remind all of you that in this heat you will have to drink a lot of water or other liquids to stay hydrated. A rule of thumb is 15 oz. of water or energy drink every hour to replace the electrolytes and liquid you have lost.***

***2. Check your tire pressure before you ride . Air temperature can change the pressures in the tires. I filled my tires up at night when it was warm and in the morning I checked them and found if the cool morning they were low by 3 lbs. for to keep safe they should be checked before you go out and ride.***

## ***2012 Chapter C Couple of the Year***

What a great month this has been! If you remember our last meeting, there were no other Couples of the Year there, so we kept our mascot Custard by default. That meant that he got to go to Wing Ding in Fort Wayne, IN! While there, he got to help us teach, meet some vendors and work registration with the rest of the Kentucky folks. We took Custard to Chapter G in northern Kentucky, where G won him. Chapter G brought him to Chapter A this past Saturday night, where we won him back again. He'll be joining us at our Chapter C meeting again this month.

Mike and I have had fun representing Chapter C as your Couple of the Year! One of us has been present at every meeting that Custard was present and as of now, we have won him seven times. During the Blast your Couple of the Year will be competing for District Couple of the Year. We hope you will come to the competition at 9am Saturday, August 11 and root us on!

Thanks for all your support and for traveling with us to try to capture Custard! We appreciate you all!
